No one is prepared for homelessness, the housing system is complex and it can be hard to know where to get help and find support.

Everyone deserves a safe and stable place to live, it's scary when you don't know where to turn. **The Centrepoint Helpline** connects you to the right services as quickly as possible. We listen, we advise and we support you to make a plan.

If you're likely to become homeless in the next 28 days, your council should class you as being 'threatened with homelessness'. You can approach them for help and advice before you have to move out. They will advise you on your housing options and may also offer other services like family mediation.
