You have £10 to spend on groceries to feed yourself for TWO weeks, how will you spend your money?

Have a think about:

- What meals you can make with your items
- What can last you throughout the week
- Think about the nutritional value in these items

Write down which items you've chosen:

1 in 4 vulnerable young people have £20 (or less!) to live off a month after they pay their rent and bills, leaving them to live off £5 or less a week.

To really put it in perspective, the average individual spends roughly £32 a week on their shopping.
